KBSL INFORMATION TECHNOLOGIES LIMITED (KBSL)

KBSL Information Technologies Limited (KBSL), formally known as Keells Business Systems Limited, is the leading Information/Systems Integrator of Information Communication Technology (ICT) solutions for Enterprises in Sri Lanka and the region. We have two charters, first, to bring distinctive business solutions to market with best of breed ICT products/services and second, to deliver the best in terms of service levels. We are best poised to achieve this through our simplified focus and in delivering our customer's information needs, through flexible and powerful solutions, that are central to their business success. This has enabled us to address our customers' business needs and provide significant value addition by deploying leading-edge ICT based solutions and services across the industries and technologies, with an "end-to-end" value proposition.

KBSL was founded in 1987, as a fully owned subsidiary of the largest conglomerate in Sri Lanka, the John Keells Holdings. In April 2008, John Keells Holdings divested the shares of KBSL to Sun Insurance Brokers of Dubai.

In 1987 KBSL commenced operations as an IBM business partner and has grown over the years to be one of the leading Information/Systems Integrator in Sri Lanka. The heart of our success can be attributed to our leadership, technical competency, versatility, business acumen, and highly dynamic & professional team.

OUR VISION

"To be a Strategic Partner to our valued customers across the globe in fulfilling their ICT consulting, information/systems integration as well as IT enabled services needs with our primal focus on value engineering and quality."

OUR MISSION

- To enable our customers' businesses to be more efficient and effective through our value engineering.
- To be an early adopter of technology/product innovations in creating better value for our customers.
- To employ the best in creating a learning organization that would make the difference for our valued customers.
- To leverage business benefits of ICT for our customers at the best possible ROI/TCO by creatively employing leading-edge Information Communication Technology solutions.
- To ensure "Peace of Mind" to our customer through our untiring focus on Customer Care based on unprecedented service levels.
- To ensure that our stakeholders, i.e. customer, shareholders and employees, have a sustainable, above normal return.

SUN INSURANCE BROKERS L.L.C

Sun Insurance was established in 1994 in Dubai with a focus to provide quality service to valued customers, professional handling of risk exposures including providing cost effective solutions for risk transfer by way of well designed insurance products.

Sun Insurance Brokers won the prestigious “Commercial Lines Broker of the Year” in 2005 and in 2007 during the annual insurance award ceremony at the Middle East Insurance Award organized by the POLICY Magazine.

The company is proud that it is one of the leading brokers in the United Arab Emirates with a total premium volume of over Dhs 80 million in the year 2006. The company operates from three offices in the UAE.

The company has diversified its operations and business lines into India and Sri Lanka. In India they have a University and in Sri Lanka have recently opened an office for their Insurance business in addition to the acquisition of share of KBSL.

WHO AND WHAT WE ARE!

KBSL repositioned itself as an Information Integrator in February 2002 to focus mainly on the Enterprise space. In aligning ourselves with our mission, our prime objective is to focus on our customer’s primal need, which is “Information” rather than “systems”. Our resolve to give a better value add to our customers, with our market leadership position in Systems Integration, had us *refocus and regroup our energies* to better focus on our strengths in addressing the market needs of the Enterprises at large.

With this our top priorities became rapid delivery of distinctive solutions to our corporate customers, and the deployment of a high-caliber team to address their integration complexities and needs. We intend to best achieve these goals by streamlining our organization, simplifying our product/service focus *to deliver flexible and more powerful solutions* that would address our customer’s business needs.

With an infrastructure that is state-of-the-art we are very well geared to take on the integration challenges of any magnitude. We are committed to giving you the best in terms of both solutions & professional services. We take pride in being able to afford you this with a team of certified/trained professionals in multiple vendor platforms and technologies. Besides, we have the capabilities to take on a project on a turnkey basis from pre-RFP stage to post-implementation including professional& consultancy services, through a full life cycle of a project.

We believe that investments in ICT can give you that added mileage, correctly invested. We can facilitate this and help you to be more swift and nimble in being more competitive!

OUR VALUE PROPOSITION TO YOU

We specialize in providing you with business benefits of ICT, immaterial of geographic location, application environments, technologies, delivery medium (voice, data or video), touch points (phone, email, internet, SMS, kiosk, palm, etc) to broad base your enterprise’s effective reach. We will be your partners in selecting the best of applications, technologies and touch points in facilitating your business to best address your specific business strategies & needs.

We have the knowledge, expertise, experience and the tools to provide and integrate an appropriate ICT infrastructure (applications, systems and related services) for your business. With these proven capabilities we are in a position to effect a total ICT strategy that will work for you in the long term in giving you that Peace of mind.

OUR FOCUS @ KBSL

Our focus is You, our valued customer, and Your Customer. *Our solutions are means by which we deliver your customers' expectations in making your business more efficient and effective.* To this end, our skills and expertise cover the wider aspects of Information Integration as your Preferred Partner. WHAT MAKES US DIFFERENT!

KBSL is one of its kinds with a total focus on service levels based on customer needs. We can address any integration challenges from a simple Server farm to a complex ICT infrastructure for your business. We are one of the very few companies with the technical skills, expertise and experience who could help a company's in-house ICT team, through its ICT strategies, Project Consulting, Project Mentoring, Project Delivery, Project Management and Training services. We also have a broad based network of partners/ VARs/ISVs in Sri Lanka, Singapore, India and the United Kingdom to give you the necessary domain expertise and industry best practices.

Our team members also retain the special ability to explain technology and system complexities in everyday terms, making us the perfect choice to demystify ICT at all levels of the enterprise. Working closely with key industry vendors our team members keep abreast of the very latest technology developments, and can advise you with confidence on the long-term strategy you should adopt in order to keep ICT working effectively for your business as a strategic partner of choice. With this comes Peace of Mind to you, our valued customer.
